Jaycees Celebrate 40th Birthday This Week

The Bay St. Louis Jaycees are observing their 40th birthday of the U. S. Jaycees this week, and it has been proclaimed "Jaycee Week" by John A. Scaffidi, Mayor of the City of Bay St. Louis.

The Jaycees kicked off the week by the holding of their Semi-Annual Awards and Installation Banquet, featuring Bosses' Night and the presentation of the Distinguished Service Award. A booth has been set up in the Merchants Bank and Trust Company showing Jaycee activities, in addition to a window display at Mauffray's Hardware Store.

The week long celebration of the founding of the United States Jaycees commemorates that week in January, 1920, when young men from 24 cities met in St. Louis, Missouri, and launched a national group which now functions in 4,000 communities with over 200,000 members.

Confident of Victory In Fight Regarding Crippling Diseases

"We are confident of eventual victory in our fight to prevent crippling diseases, but let us not forget the sicken for whom that victory will be too late," Mrs. Theda Tudury, Hancock County 1961 New March of Dimes chairman, said today.

"Your contribution to the New March of Dimes provided \$17,350.08 in direct patient aid during past years to 13 paralytic polio victims in Hancock County. We hope your generosity this year will provide enough money to enable the local chapter of the National Foundation to begin its patient aid program for children through the age of 18 who are afflicted with crippling birth defects and rheumatoid arthritis," she said.

Some chapters of The National Foundation in various parts of the country have already been able to extend their patient aid programs to the fields of birth defects and rheumatoid arthritis, Mrs. Tudury declared.

"We would like to be able to take that step in Hancock County," she said. "As a matter of fact, The National Foundation would like to provide help for many of the 11,000,000 Americans suffering from arthritis and rheumatism and to the 250,000 children born annually with significant birth defects.

Obviously, this is a task far beyond the capacity of any voluntary health organization. But we can help those who could benefit most.

"The need is urgent. That is why we ask you to please say YES to the New March of Dimes," Mrs. Tudury said.

COUNTY
AGENT'S
NOTES
County Agent
O. O. SWORDS
1961 is Pasture Repair and Im-
provement Year to make money.
I am going to outline four things
I would like for you to push on
pasture work. 1. Apply lime
and fertilizer. 2. Control weeds,
3. Control overgrazing. 4. Grow
feed. These four things will make
a good pasture program and
make money.
Dock and Thistle. Dock and
thistle can be sprayed now on any
of the areas where it is grow-
ing. 2,4-D cannot be used where
crimson clover, red clover, hop
clover, vetch or winter peas are
growing. One pound will kill
dock and thistle. Dock and thistle
should not be sprayed when
temperature is below 60 degrees.
MORE CORN IN 1961
Here are some pointers to help
you make more corn per acre next
year: Shred the stalks. But graze
out the fields first. Apply lime
where needed—use a soils test to
determine lime and fertilizer
needs. Put out the lime when
trucks can get over the fields.
Plan to use all the barnyard
fertilizer available on your corn.

Everyone benefits from produc-
tive forests. Actually, the land-
owner receives only a small por-
tion of the total value in his for-
est land through the stumpage
paid to him from the sale of tim-
ber. The general public is the
greatest benefactor of our for-
ests. Protected woodlands are pro-
ductive and they are playing a ma-
jor role in the state's rapid eco-
nomic growth by furnishing jobs,
payrolls and purchases which are
so vital and basic in improving our
standard of living. Recreation and
conservation facilities also benefit
highly. High costs are involved in
installing a fire protection system.
This includes the purchase of fire
trucks, planes, training men, and
other things. The state's forests are
one of its most important assets.
Area Forester Marion Parks reports
that fire control is only a part
of the overall Commission forestry
program. Other services available
are forest management advisory
assistance, tree seedling and for-
estry information and education
activities.

EGG PRODUCTION IN
STATE IS UP
Mississippi farm flocks laid
85,000,000 eggs during November,
an increase of 2,000,000 over the
same month last year. Production
for the year to date is 824,000,
000 eggs, six per cent greater
than for this period in 1959. Egg
production per layer during No-
vember was 13, compared with
12.2 eggs in November last year.

LAMAR COUNTY COW SETS
RECORD MILK YIELD
A Lamar County cow has set
a new state milk production re-
cord. The cow produced 20,720
pounds of milk in a 303-day milking
period. The owner is a dairy-
man near Purvis. The produc-
tion came despite a 60-day drought
and an outbreak of armyworms
and with no grazing in August.

HOME GARDENING
The spring gardening is just
around the corner. Be ready for it
when it gets here. Lots of your
spring vegetables can be planted
late this month.
You can plant English peas,
Irish potatoes, carrots, cabbage,
leaf lettuce, onions, radishes spin-
ach, turnips, and mustard in Jan-
uary.
Will your rows be ready when
the date arrives? Make sure
your answer to this question is
"yes".

HAPPY NEW YEAR.
Let's make 1961 the best farm-
ing year you have ever enjoyed.
Make some definite plans now
to use the right amounts of fer-
tilizer, the right varieties of
plants. Let's keep accurate re-
cords of production.
Your county agent and his staff
wish you and yours the most suc-
cessful and happiest year ever in
1961. Happy New Year.

274,000 Acres Of
Timberland; Uncultivable
Land In Hancock County
Area Forester Marion Parks
reports there are 274,000 acres of
timberland and uncultivable land
in Hancock County under or-
ganized fire protection by the Mis-
sissippi Forestry Commission. To assist
in the support of a forestry program
a fire prevention tax in the
amount of two cents per acre is
assessed on timberland and un-
cultivable land.

This contribution by the land-
owners represents about 19 per
cent of the total amount expended
for organized fire protection. This
is fairly comparable to the
number of fires caused by land-
owners largely through burning
ditch banks, fields and leaves.
The remaining 81 per cent of fire
control costs is paid by the gen-
eral public through state and fed-
eral funds. This is also compar-
able to the percentage of fires
caused by the general public.

Everyone benefits from produc-
tive forests. Actually, the land-
owner receives only a small por-
tion of the total value in his for-
est land through the stumpage
paid to him from the sale of tim-
ber. The general public is the
greatest benefactor of our for-
ests. Protected woodlands are pro-
ductive and they are playing a ma-
jor role in the state's rapid eco-
nomic growth by furnishing jobs,
payrolls and purchases which are
so vital and basic in improving our
standard of living. Recreation and
conservation facilities also benefit
highly. High costs are involved in
installing a fire protection system.
This includes the purchase of fire
trucks, planes, training men, and
other things. The state's forests are
one of its most important assets.

At Mississippi
University
The 1961
meeting of
the National
Dairy Producers
Association
will be held
at the Uni-
versity of Mis-
sissippi, Jan-
uary 15-17, 1961.
Robert E. Mc-
Intosh, presi-
dent of the as-
sociation, said
that this meet-
ing was being
held in Missis-
sippi for the
first time.
The dairy farm
and throughout
voluntarily support
program of research,
merchandising and
for milk and other
products.
The slogan "Better
Milk" makes the
Never Outgrow Your
Milk. "Drink's Glass
Every Day" are gaining
throughout the nation.
The program has
progress in Missis-
sippi excellent cooperative
processors, distributors,
men the coming year
even greater progress.
Appearing on the pro-
gram will be Dr. D. W. Colvard,
Mississippi State University,
Bama Brewer, First All-
Process; Dr. Clay Lyle,
Director, Division of
Mississippi State University,
von Rosenberg, Southeast
Manager, American Dairy
Union of Austin, Texas.
A free lunch will be
the college cafeteria.
Dairymen are urged
this meeting.

EGG PRODUCTION IN
STATE IS UP
Mississippi farm flocks laid
85,000,000 eggs during November,
an increase of 2,000,000 over the
same month last year. Production
for the year to date is 824,000,
000 eggs, six per cent greater
than for this period in 1959. Egg
production per layer during No-
vember was 13, compared with
12.2 eggs in November last year.

LAMAR COUNTY COW SETS
RECORD MILK YIELD
A Lamar County cow has set
a new state milk production re-
cord. The cow produced 20,720
pounds of milk in a 303-day milking
period. The owner is a dairy-
man near Purvis. The produc-
tion came despite a 60-day drought
and an outbreak of armyworms
and with no grazing in August.

HOME GARDENING
The spring gardening is just
around the corner. Be ready for it
when it gets here. Lots of your
spring vegetables can be planted
late this month.
You can plant English peas,
Irish potatoes, carrots, cabbage,
leaf lettuce, onions, radishes spin-
ach, turnips, and mustard in Jan-
uary.
Will your rows be ready when
the date arrives? Make sure
your answer to this question is
"yes".

HAS SANTA GOT
A CHECK FOR YOU?
Santa spread checks and cheer all over
town these past few days. Happy folks
on the receiving end had cash in hand to
go on a wonderful Christmas gifts shop-
ping spree, without ever a thought of
bills to come (there will be none).
If you were not among these fortunate
ones, you can be next year! Join our
1961 Christmas Club now. Systemati-
cally saving a little every week will add
up to a big check for you with which to

AMERICA'S POPULAR PAIR

The best selling
CHEVROLET & CORVAIR!
The "car of the year"

Overwhelming acceptance of the new 1961 models
introduced last fall—coupled with the tremendous
success of the 1960 Chevrolet—the new Chevrolet
and Corvair are now an all-time yearly high.
More new Chevrolets and new Corvairs were
delivered to more people during the past year
than any other make of car in a single
year before. We need your Chevrolet dealer
thank you for your continuing confidence in, and
preference for, Chevrolet. Your record-breaking
purchases of Chevrolets have significance to
everyone thinking of buying a new car this
year, and since sales of new 1961 Chevrolets
and Corvairs continue to exceed last year's
sales, the healthy indication of the increased
popularity of these cars is not only a reflection
of your national economy.

When Christopher Columbus began his probe of an unknown ocean there were many who predicted he would soon reach the edge of the world . . . and fall off into nothingness.

Today we are probing that nothingness. The edge of the world is everywhere; and man eagerly reaches for whirling worlds that pioneers yet unborn may colonize. As we explore the vastness of God's creation we realize with greater awe His might and majesty. But greater, we know, is our need for understanding His Will, and His Love for man. For man can take to his new worlds tomorrow only the Truth and Faith and Life he discovers in this world today.

Therefore, while a few gifted scientists are building highways from the edge of the earth, the Church is offering everyone opportunity to probe the spiritual depths which shall determine our destiny.

THE CHURCH FOR ALL ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and spiritual support. Plan to go to church regularly and read your Bible daily.

Announce Engagement

Mr. and Mrs. Frederick L. ...
...Herlihy announce the engagement ...
...and approaching marriage of their ...
...daughter, Kathleen Jacqueline, ...
...to Mr. Terrance Curtis Asher, son ...
...of Mr. and Mrs. Curtis Asher of ...
...Bay St. Louis.

The wedding will take place ...
...February 4, at Our Lady of the ...
...Gulf Catholic Church.

Miss Herlihy graduated from ...
...Bay St. Louis High School in ...
...June 1960. She is presently man-
...aging the Tot Shoppe in Bay St. ...
...Louis and is organizer for Saint ...
...Clare's Church in Waveland.

Mr. Asher, a graduate of Bay ...
...High School, Class 1956, is in the ...
...building and contracting busi-
...ness. He is also a member of the ...
...National Guard.

Warmer issued to ...
...TRAILER AND MOBILE ...
...HOME OWNERS

A warning was issued today to ...
...all owners and occupants of travel ...
...trailers and mobile homes by ...
...Dr. A. L. Gray, State Health Of-
...ficer.

Dr. Gray says there is extreme ...
...danger of sleeping in trailers ...
...when heating equipment with ...
...uncontrolled continuous fuel sup-
...ply is used, unless there is pro-
...vision for fresh air intake and ...
...proper venting.

A nationwide search is being ...
...conducted, he says, to locate ...
...some 60 dangerous models of ...
...Midway travel trailers with un-
...vented heaters.

Already at least 16 people are ...
...known to have died from sleeping ...
...in Midway trailers installed with ...
...Koolyall Model 542 heaters.

"Don't be misled by the fact ...
...that the heater carries the A. G. ...
...Seal of Approval," States Dr. Gray. ...
...The approval was for residen-
...tial use only and not for trailers, ...
...he explained.

"And when burning in the air-
...tight Midway trailer—which has ...
...the windows, the roof hatch and ...
...the doors weatherstripped—the

heater created a death chamber."

The Midway Company is at-
...tempting to locate all these trail-
...ers installed with the dangerous ...
...heating units.

While his alert is directed par-
...ticularly to the Midway travel ...
...trailer, Serial No. A2315, Dr. Gray ...
...says that occupants of all trail-
...ers, cabins and hunting lodges ...
...should have the heaters checked ...
...for faulty installations.

"Any unvented heater burning ...
...in close quarters may cause ...
...carbon monoxide poisoning, re-
...sulting in serious illness or ...
...death," says the health officer.

EXPANDING COTTON MARKETS

Cotton-conscious Mississippi can ...
...derive satisfaction from a fore-
...cast that the demand for Ameri-
...can cotton in both domestic and ...
...export markets will climb to 16-
...300,000 bales by 1965, and to ...
...about 18 million in 1970. There ...
...is an indication that the increas-
...ed need will stem largely from ...
...population expansion rather than ...
...for an increase in the use of cot-
...ton on a per capita basis, however, ...
...it is felt that the natural fiber ...
...will just about hold its own in ...
...competition with the synthetics.

ALL-TIME BEST AWARD

Mississippi Has More Cars And Roads Than Before

Mississippi has more cars and ...
...and more paved highways than ...
...ever before according to a sum-
...mary of 1960 progress released ...
...today by the State Highway ...
...Commission.

During the 1960-61 season, 320 ...
...miles of paving contracts were ...
...completed, 240 miles of grading ...
...was ready for pavement, and ...
...\$39,880,022 in new contracts sig-
...ned.

This, according to Highway ...
...Commissioner John D. Smith, of ...
...the Southern District, minimizes ...
...one of the best construction ...
...years in history of the State High-
...way Department.

Simultaneously with this con-
...struction program, the commis-
...sioner reported significant pro-
...gress in maintenance. During the ...
...year, 812 miles of existing high-
...ways were resurfaced. This op-
...eration will prolong the life of ...
...these highways, as well as improv-
...ing the riding surface.

This extensive highway con-
...struction and maintenance op-
...eration was described by the com-
...missioner as a major Mississippi ...
...industry, with direct and indirect ...
...effects extending into many ...
...phases of the state's economy.

While completed construction ...
...projects were scattered over a ...
...wide area of the state, several ...
...filled final gaps in trunk high-
...ways serving major areas of Mis-
...sissippi. Among these were Miss-
...sissippi Highway 25 from Carthage to ...
...the Tennessee line; Mississippi High-
...way 4 from Fox Island on the ...
...Miss. River to Demaris in Tisho-
...mingo County; Miss. Highway 8 ...
...from Ackerman to Sherman; ...
...Miss. Highway 27 from Vicksburg ...
...to the Louisiana line; Mississippi ...
...Highway 33 from Fayette to the ...
...Louisiana line; and Mississippi ...
...Highway 63 from Leakeville to the ...
...Gulf.

First fruits were borne in the ...
...department's long-range program ...
...for four-laning U. S. Highway 41 ...
...from Jackson to the Gulf Coast. ...
...Two projects were completed, 25 ...
...miles under contract for paving ...
...at the year's end. This program ...
...was launched three years ago.

On the interstate system, im-
...portant segments were completed ...
...in Hinds County; and paving con-
...tracts now cover 109 miles, the ...
...longest continuous link of which ...
...is between Grenada and the Ten-
...nessee line. Major portions of ...
...the work now under paving con-
...tract are scheduled for opening ...
...within the next twelve to eigh-
...teen months.

The Interstate system was in-
...itiated by Congress in July of 1956 ...
...Four Mississippi highways are on ...
...the network of super-
...highways, which have been chosen ...
...for their value to the national ...
...defense and interstate traffic ...
...needs. These Mississippi highways ...
...are: U. S. 90, U. S. 90, U. S. 90, ...
...and U. S. 90.

Work of the Highway Depart-
...ment in 1960 provided highway ...
...improvements in every county of

the state.

Commenting on the outlook for ...
...the next twelve months he said ...
...construction contract schedules ...
...should compare favorably with ...
...schedules of the past years. Fed-
...eral aid apportionments just an-
...nounced show an increase in In-
...terstate funds beginning July 1, ...
...but federal aid for primary and ...
...secondary roads will be reduced. ...
...The reduction was attributed ...
...to Mississippi's loss in population ...
...and was most severe on secondary ...
...roads serving rural areas where ...
...the state's population loss was ...
...most severe.

Maintenance resurfacing may ...
...also drop below the 1960 levels ...
...he said. For the past several ...
...months, gasoline tax revenues ...
...have dropped below predictions.
